Troop 188 feels that parents/guardians have the primary responsibility for the administration of medication to their children. Therefore, Troop 188 feels that the administration of medication to Scouts during campouts is discouraged unless necessary for the critical health and well-being of the Scout.

Medication, both prescribed and non-prescribed, is to be handed to the Scoutmaster, or Assistant Scoutmaster, or adult in charge, prior to camp departure in its original container or one labeled by the pharmacy or physician, to be locked in the Troop's medical box. It should be clearly labeled with:

- 1) Scout name
- 2) Drug name and dosage
- 3) Time it should be taken (if not prescribed, label "when needed")
